Subject: Effort Report

I hope you had a good weekend. It is great here! Have we resolved the effort report thing? I know we are supposed to do it online but I don't feel comfortable signing off on it since, as we discussed, it is wrong. Please advise how to proceed

Please calm down! Linda is working on this issue. You need to be very careful what you say and to whom you say it.

Subject: disallowable costs

Jose--

We have to fight these fucking "disallowable costs". I have worked very hard to balance our budget and have done everything according to regulations. Further everything that is suddenly disallowable was previously approved. So this is fucking bullshit! This is just another way in which these people are fucking us over. I know Linda is aware of this but we have to stay on top of this. You are going to have to use your weight as a senior TENURED faculty member to fight this because I don't have tenure et and am in a bad spot here. I know this is happening to others too so we have to fight this!
